REASON FOR REFERRAL OR SUSPECTED DIAGNOSIS

PRIORITY Routine Urgent
If urgent, please justify

CLINICAL INFORMATION *Include any consultations, imaging reports, past medical history, active medications, and/or investigations*

SERVICES REQUESTED

- ACUTE INJURY CLINIC** - For patients that have experienced a peripheral injury or concussion within the past 4 weeks that need to be seen urgently. The target is to see acute injury patients within 1 week of referral.
- PERIPHERAL JOINT CLINIC** - For patients with problems with the shoulder, elbow, hand/wrist, hip, knee or foot/ankle including osteoarthritis; rotator cuff syndrome; tennis or golfers elbow; DeQuervain's tenosynovitis; trigger finger or trigger thumb; greater trochanter pain syndrome; adductor tendinitis; hamstring tendinitis; quadriceps or patellar tendinitis; Achilles tendinitis
- SPINE CLINIC** - For patients with spine conditions such as cervical, thoracic, lumbar or SI joint pain; sciatica; cervical radiculopathy; spinal stenosis
- SPINAL CORD STIMULATION (SCS) CLINIC** - For patients with chronic radicular pain after spinal surgery
- MVC CLINIC** - For patients with musculoskeletal injuries resulting from a motor-vehicle collision
- ORTHOBIOLGIC CLINIC** - For patients with axial and/or peripheral joint or soft-tissue conditions who are interested in cortisone-sparing treatments, like *PRP, with potential anti-inflammatory and regenerative characteristics
- PHYSIOTHERAPY** - For patients requiring physical rehabilitation for acute or chronic tendon/ligament injuries, simple or complex peripheral joint conditions or lumbopelvic health problems
- OTHER:** _____

**Orthobiologic injections are not covered by public health insurance*
